LAW AND LAWYERS.

Why Some Succeed and Many Fail in This

Mr. Richard Devereux Doyle, a prominent member of the Norfolk (Va.) bar, contributes to the Southern Murazine an artical entitled "My Impressions of Law and Lawvers." which will prove in teresting to laymen, as well as to members of the legal profession. Mr. Doyle disease; his theme instructively, entertainingly and with judicial inpartiality and candor. He refers to the "Confessions of a Junior Barrister." by the brilliant Richard Lalor Sidel, as embodying the early experiences of many hopeful and talented young lawyers. "How many," says Mr. Doyle, "have passed tarough a sim lar course, of study and preparation; perhips gradvating in the humanities, as well as the law, bearing away the prize for clocution and oratory at some of our great institutions of learning? How many have thought that such talents as theirs were sure to commant early, if not immediate, success, and, alas, how many have been disappointed," differing, it may be added, in this respect from Shiel, who passed safely through the depressing period of waiting and probating, which tries the soul of the ordinary legal neophyte, and who won the distinction of which he had dreamed at the outset of his career. Many of this grand army of the disappointed fail, Mr. Doyle thinks, not because they are lacking in "genuine talent." which is "frequently of a high order," but "because there are so many other elements

that should, but do not, enter into the calculation" of the youthful aspirant. Youth, for one thing, "is too sanguine and expects too much. Some fail because of their bad personal habits; some by infirm health and too hard study and confinement are stricken down, like poor Kirk White, 'when life is in its spring.' Some are not politic enough to woo the world, but hold proudly aloof, trusting to their talents and knowledge, while the busy world goes bustling by without stopping to look at their credentials." Some stray into the pleasant and flowery paths of literature and some into the seductive field of politics. "A literary reputation," Mr. Doyle declares, "is, perhaps, Lynchburg 145 p. m., Petersburg more dangerous than a political one. 6.65 p. m., Richmond 7.00 p. m., and especially if one is given like Mr. Wegg, to dropping into poetry. The age is too practical for a successful

> but he must not be known as a literateur or a poet." Nor will it do for the young lawyer to seek to make himself known by going into polities. To do so is a risky venture for one who intends to make law the profession of a lifetime, and even a reputation for political oratory is of little if any benefit to a lawyer. The public soon come to regard him as a politician and may be days; turn off the vinegar, heat to the willing to vote with him or for him, boiling point and return. Seal while

Turning from the causes of failure to the qualities important to what is ordinarily deemed success, Mr. Doyle summarizes them as follows: "Love of the profession and evident desire to get business, and attention to it when in hand; industry and the appearance of industry and good native sense: with an aggressive and partisan tempera-6.09 p. m. daily for Bluefield, Keno- ment. Fluency of speech, eloquence va, Columbus and Chicago. Pullman of diction and genuine oratorical talent Enffet sleeper Itadioid to Columbus are useful, but not essential." This partisan and aggressive spirit, which is akin to what Lord Bacon calls "boldness," Mr. Doyle considers a particularly important element of success. "Men 'hire' lawyers, as the expression is among plain people, to attend to their business and fight their battles, right or wrong, and the lawyer who goes into a case thoroughly imbued with the client's feelings, believing or making believe that he is certainly right, and the other party an unmitigated rascal, is sure to please." As to the ethical side of the law, Mr.

Doyle admits that much may be said pro and con. One of the demoralizing features of the profession is that "a lawyer cannot choose his cases." He is sometimes on the wrong side, the when on the wrong side "there is alcusation that lawyers lie for their clients." After all, whether the "law is a noble and elevating profession" "depends upon the man." There is nothing in the nature of his profession which compels a lawyer to be radical. It has its temptations, but so has every other business. Many hard things have been said of lawyers, but the account is nearly balanced by the complimentary things that they have said of themselves and of their profession. Sir Edward Coke speaks of "the gladsome light of jurisprudence." and a lack of self appreciation is not in general one of the defects of the disciples of the law. They have, however, the consolation of knowing that in spite of all the abuse to which they have been subjected by satirical writers and poets, they are not only it is worn. Black eudora, melrose, silk useful, but essential members of warphenrietta, black cheviot and black society, and that those who abuse them silk can all be worn with these fancy most are generally the very first to waists. rush to the lawyers to avenge or protect them in their honr of need. -Balti-

HOUSEHOLD BREVITIES.

-Peach Ice Cream.-Peal the peaches and crush them to a pulp. To a small freezer of cream made in the usual manner add a pint of this crushed peach

pulp, freeze firmly and serve. -Apple Snow .- Pare, slice or quarter two good-sized, tart apples, steam until colander, and set them where they will and the juice of two lemons, one cup Beat all to a froth and serve at once.-

Prairie Farmer. solid tomatoes and place them on ice. When cold, cut into slices half-inch half teaspoonful sugar and four table- peradoes. spoonfuls oil. Mix and pour over the tomatoes.-N. Y. Observer.

sweet milk, three ounces of grated and one or two (according to taste) tea- adobe buildings straggling along the spoonfuls of vanilla. Scald the railk and chocolate together; when the beaten separately; the sugar and vanilla. Bake in a pudding dish for half an hour. Beat the remaining whites of the egg. with five tablespoonfuls of sugar, spread over the top and brown lightly.-Boston Budget.

-To obtain Devonshire cream, put a pan of milk in a cool place for twentyfour hours. At the end of that time place the pan on the back of the range. and heat the milk slowly to the boiling point, being careful not to let it boil. Put the pan in a cool place for six or twelve hours. At the end of that time skim off the cream which will be found firm, and of a peculiar milk may be scalded after it has stood for twelve hours. This cream is delicious if served with fruit, blanc

-Sweet Peach Mangoes.-Take sixty nice large peaches that have not begun to soften. Pare them, split on one side and extract the kernels. Mash a dozen soft peaches; chop one ounce each of candied orange peel and preserved ginger and mix with a teaspoonful of cinnamon, a grated nutmeg and half a teaspoonful of caraway seed. Fill the peaches, wind them with white fruit when boiling hot. Let stand two it on the cloth. boiling hot.-Housekeeper,

DRESS ORNAMENT.

New Styles Which Have Rich and Elaborate Many of the handsomest dresses are trimmed with flat bands of some material or other stitched on. There was one lovely dress of mode cloth, with three rows of tan cloth stitched around the skirt at equal distance from the bottom, and in front they were finished with points and buttons. There was an inset front of amaranth cloth all the way down, and two stitched bands on the waist and one around the wrists. The waist had a flat rolling collar for sole ornamentation, and it ended at the waist line under a belt of the cloth. The skirt hung in godet plaits all around, except across the front. The simplicity of this gown is studied, and it is very elegant. I saw a black cloth dress made just like this. only the inset was simulated in the same material. The bias bands were stitched on with searlet silk.

It is but three or four years since the vogue for vandyke pointed laces was strong, and now we find them everywhere in all the thick laces, and in white ceru and butter color, and others side of falsehood and injustice, and in unbleached flax thread. They will be used to trim gowns as corselets, most irresistible temptation to express vokes and in other ways on the waist belief in the justice of his cause, and land sleeves, and besides will be used lawyers too often yield to it, thus to border the bottoms of skirts, with giving some ground for the popular ac- the points set upward. Some of them will have the straight edge hidden under narrow black velvet ribbon.

There are some novelties in the way of waists made of siik, veiled and covered with fancy chiffon. Some of the silks would be of one color and the chiffon of another, entirely different, so that it gave the whole a changeable effect. The chiffon is mostly in butter color, blue or cherry red. The effect is particularly odd, but pretty. The "waists," as they are almost always called when made of a color of material entirely different from the skirts. will have a veritable furore this season, and almost every lady has five or six of them to wear with different skirts, or in some instances the same skirt, for one really handsome skirt will always look well with whatever kind of waist

Zouave jackets to be worn over silk shirt waists are coming forward, and they are made of braided velvet or cloth, black scarlet, white or blue. drops gently and Rarely any other color is shown. AN HISTORIC BARROOM.

The Landlord Proud of the Fact that Twen-ty-Live Men Have Been Slain There.

Cimarron was a lively town in the seventies, said a land surveyor from New Mexico. I have seen Clay Allison ride into the place with a following of cowboys and start in to make a night tender, and then run them through the of it. He would buy out Lambert's barroom to begin with, turn everybody get ice cold, then add the grated rind out of the room except his own crowd, and then their fun would be fast and of sugar and the whites of six eggs. furious. On such an occasion I glanced through the window and saw a cowboy dancing naked on the counter to the ac--German Tomato Salad .- Peel four companiment of yells and pistol shots

Rub this all well together, add women, cards, or in the ambitious atone tablespoonful tarragon vinegar, tempt to assert their supremacy as des-

When I last visited Cimarron, in 1878, the town was quiet, the cowboys being -Chocolate Pudding .- One quart of all out on the ranges gathering beef cattle in the fall round-up. It was the chocolate, six eggs, one cap of sugar same old place, with its flat-roofed banks of the deep ravine through which the Cimarron river flows, its few chocolate is dissolved take from the pitch-roofed whitewashed residences of fire, and when cool add the yolks of the wealthier people, and Lambert's. the six eggs and the whites of three At that excellent hostelry of sanguinary record I was welcomed by the host, the most genial and pacific of Frenchmen, who, as we chatte'l together over a glass of native wine, spoke with evident pride of the tragic events connected with his historic barroom.

"Twenty-five men have been killed in this room," he said, "seven in one year. Look at this," and he led me to one corner and pointed to two great splashes, dull red in color, upon the wall, one above the other. "These are the blood stains made when Pancho was killed."

Pancho was a Mexican desperado, and between him and Clay Allison enmity had long existed. Allison rode sweet flavor. In very hot weather | into town one day and fell to drinking, quietly enough, as he usually did in the beginning. As soon as Pancho heard that Allison was in town he likewise mange, toast or hominy .- N. Y. World | began to drink, and then the townspeople looked for difficulty between the two. They did not meet until late In the evening, when, as Allison stood in Lambert's barroom, his elbow resting on the counter, Pancho came in and walked over to the further corner of the room. Two other Mexicans entered with him, one of whom took a position a little in the rear of Allison, while the other threw himself in a lounging atcotton yarn to close them, and put into titude upon a corner of the billiard jars. Allow four pounds of sugar to a table in the center of the room, and quart of vinegar; pour this over the taking a revolver from his pocket laid

To these maneuvers to distract his attention Allison gave no apparent heed, but kept his eye on Pancho, who began to talk to him, proposing that they adjust their differences in a friendly way. As he talked thus plausibly the Mexican held his sombrero before him in his left hand, concealing a weapon, with his right hand all the time slipping down toward the hat. As Pancho passed his hand beneath the brim, Allison's pistol came out like a flash, and its two quick reports sounded like one. Pancho, shot through the forehead and the heart, staggered against the wall and sank in a sitting posture into a chair that stood in the corner. The other two Mexicans made themselves scarce at Allison's first motion, and Lambert, running in from the kitchen, blew out the lights and closed up the barroom without perceiving the slain man in the corner.

Allison at once took horse for his ranch, saving nothing to any one of the shooting, and that night the friends of Pancho hunted far and wide for him, not knowing where or in what condition he was. The next morning, when Lambert opened up his barroom he saw Pancho sitting asleep, as he thought, in the corner, and, going to wake him, discovered that the man was dead .- N. Y. Sun.

MISSED THEIR TRAIN. In Spite of Mr. Bittersweet and His Lecture on Punctuality.

The young Bittersweets were going away on a visit and after many vicissitudes they were in the street car on their way to the station.

"Now, Amelia," remarked her lord, "I hope you will learn a lesson in punctuality from all this. You nearly made | the nerve to ask that same lawyer to us late by running upstairs again at defend him again. the last moment."

"For the tickets which you had for-

gotten, dear." "H'm. That was because you fancied you smelled gas and sent me to look Jenkins has passed upon it. for it in the vacant room where nobody had been for six weeks." "Well, you said that some one might

so busy all week making my own dress limb. because I couldn't afford a dressmaker,

order-yours was at the jeweler's, as

"Because you tried to regulate it, dear, and put it out of order."

"Always some excuse. But, as I say, punctuality is a great virtue-now I never miss a train and never sit at the station half an hour or so. You are habitually late-you should make a habit of winding and setting your watch at a certain hour each day; say when you go to bed."

"Yes, dear, I know. But sometimes I go to bed quite early and sometimes I sit up very late for you.' "H'm. Here we are at the station.

Wait a minute, my dear, while I buy a cigar. Now you will see that I have allowed just time to get comfortably into the train. Just give me the tickets, will vou?" "Why, Chauncey, I-I must have for-

gotten and left them on the bureau ature fell rapidly, drawer and I was afraid the mice—" "And for the sake of a few chocolate ereams we shall lose our train. You will never learn-"

"What train did yez want?" queried the gatekeeper. "The 3:30," snapped Mr. Bittersweet. "Went ten minutes ago," was the

cheery reply. "But-but my watch says 3:28 now," faltered Mr. Bittersweet. "Watch is slow. Yez should wind

and set it at a cer-" But Mr. Bittersweet was out of hearing.—Chicago Tribune.

-"That lady over there? O, yes, she is very clever. She has mastered three languages and her husband."-Fliegende Blatter.
